AI Transformation

The Next Frontier in Digital Business Transformation

Strategize
and align on a clear AI transformation road map

Strategy & Innovation
Business Strategy → Technology Strategy + AI Strategy → Business Transformation Strategy

Transform
core business processes and use cases

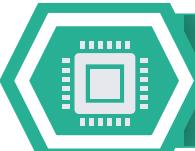

Business Transformation
Evaluate → Redesign → Optimize

Enhance
decision making as a competitive advantage

Data & Analytics
Master Data → Improve Data Quality → Integrate AI → Empower Business Functions

Enable
through technology solutions

Technology
Modernize Applications → Automate → Integrate AI & ML

Lead
people through change and fully realize benefits

People & Culture
Plan for Change → Upskill Users → Foster Innovation → Optimize Target Operating Model

Protect
the business and mitigate risk

Cyber, Risk, & Compliance
Define Governance → Secure Assets → Manage Risk

AI & Automation Road Map

Your AI Transformation Journey

1. Strategize & Align

Innovate, Explore, & Prioritize

- Identify pain points & use cases & evaluate current capabilities
- Develop strategy & road map
- Communicate & align

2. Prepare & Pilot

Build Foundation for Success

- Improve data quality, architecture, & controls
- Define & establish an AI Center of Excellence (CoE) model
- Pilot a quick win use case

3. Implement Quick Wins

Operationalize Base Solutions

- Confirm pilot use case viability, measure benefits, & complete lessons learned
- Implement additional quick win solutions
- Share success stories

4. Operationalize Scale

Mature Solutions & Implementation Capability

- Iterate on quick wins to add functionality & address user feedback
- Expand demand in-take to other business functions
- Grow into task agent use cases

5. Optimize & Transform

Transform Business Processes

- Periodically reviews solutions to ID/remediate underperformance
- Partner with business functions to transform their processes
- Drive efficiencies via task/autonomous agents

AI Center of Excellence: Identify, Prioritize, Govern, Implement, Optimize

Drive quality results through right-sized process & governance

Manage Demand In-Take | Prioritize Efforts | Manage Risk | Implement Security & Quality Controls | Evaluate Performance

Lead Through Change

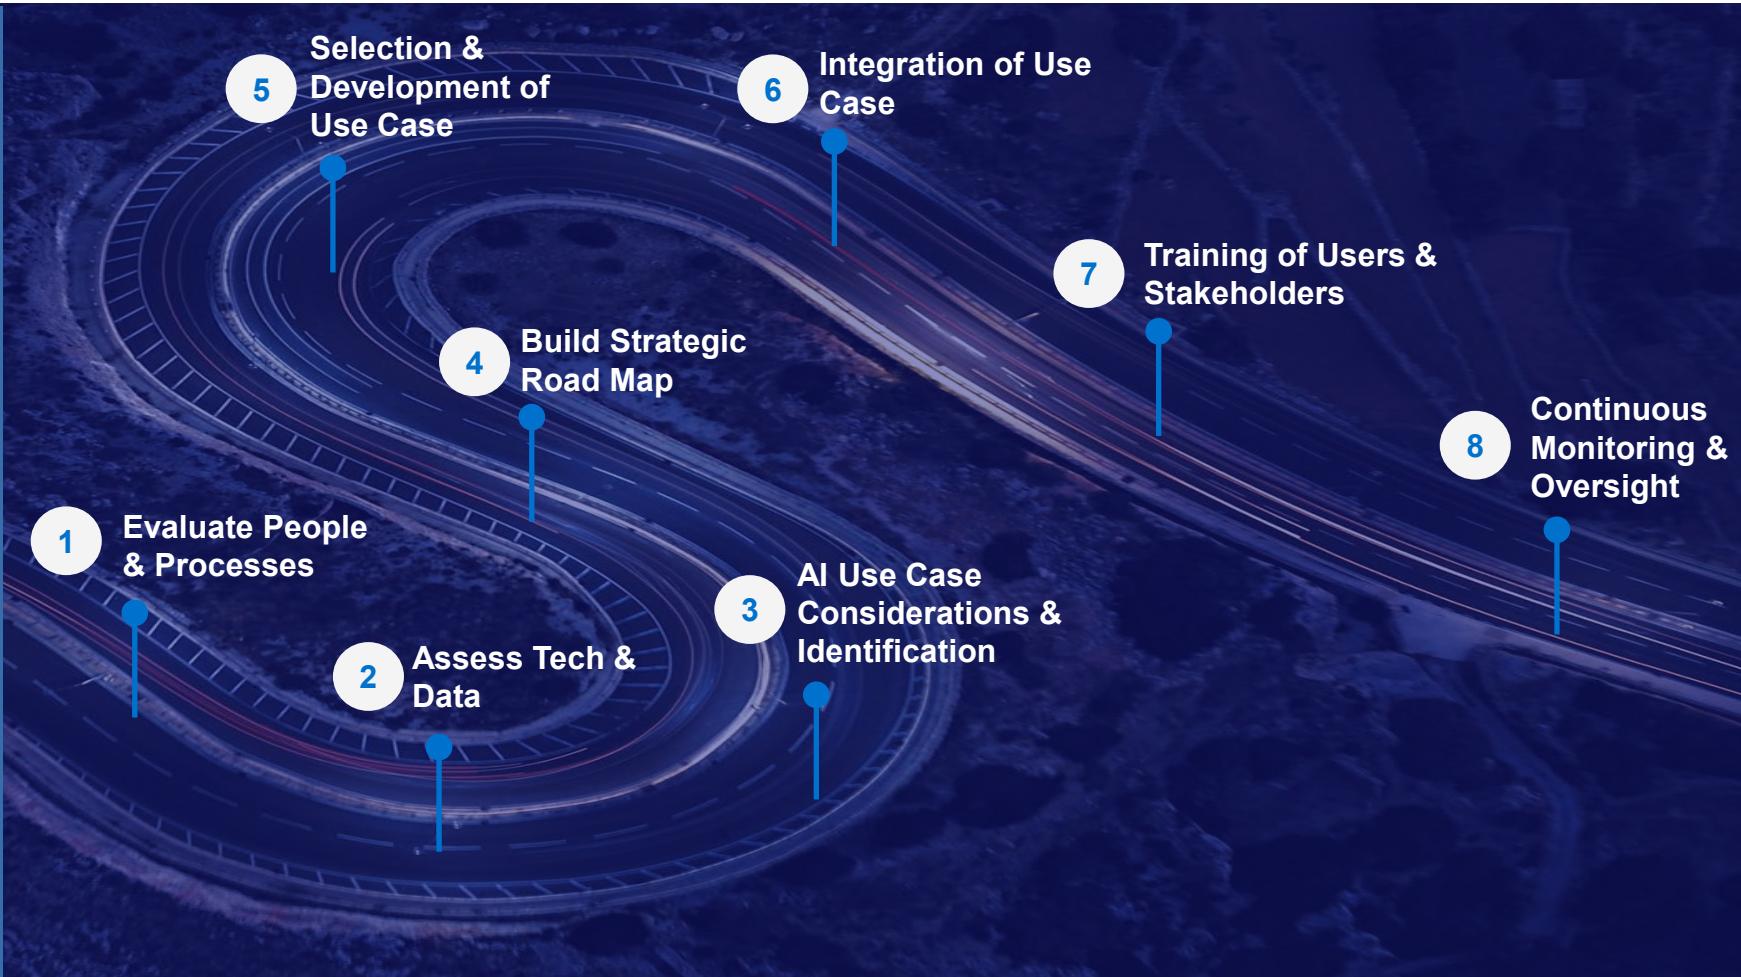

Foster AI forward culture to drive adoption

Assess Change Impact | Communicate & Celebrate | Train & Upskill

AI Transformation Journey

Where to Start

- 01 Evaluate current personnel, staffing needs, and processes across functional areas.
- 02 Determine restrictions and benefits of current infrastructure, tech, and data (including access, availability, and readiness).
- 03 Identify possible use cases considering current state (enhancement), as well as what is possible in the future (transformation).
- 04 Build out departmental AI strategic road map to outline the journey from current to future state.
- 05 Select use case(s) and develop using external LLMs, back-end programming, and front-end deployment.
- 06 Integrate use case(s) with existing systems/platforms and establish new process and procedure documentation.
- 07 Socialize updates and train users on newly developed AI technology.
- 08 Enact continuous monitoring and oversight.
